## SECTION SF 30 BLOCK 14 CONTINUATION PAGE

**The following items are applicable to this modification:**

This amendment four (0004) is issued to incorporate the new disposal requirements.

The Statement of Work (SOW) is revised to incorporate the changes listed below: Additions to SOW are in **bold print** and deletions are lined-out.

**1.1. Background**

Page 2, Last Paragraph:

The Idaho Department of Environmental Quality (IDEQ) determined that the Sb Plant is a metal beneficiation process and the waste meets the definitions in RCRA ~~261.4(b)(7))~~ as a Bevill exempt waste. The determination by the IDEQ was based on the nature of the material as a waste and the fact that it was part of a beneficiation process for metal ores. Since the material being disposed of fits the designation of a Bevill-exempt waste; it does not carry a hazardous waste designation. As a Bevill-exempt waste, the material may be disposed of in a **HDPE Geomembrane-lined RCRA Subtitle D landfill, at a minimum**. ~~However, because the waste product contains various antimony salts which are highly soluble and a potential threat to groundwater, the IDEQ and the USEPA are restricting the disposal of these materials to a Subtitle D landfill that has a bottom liner and a leak detection, collection and recovery system.~~

**3. TASK 2: TRANSPORT AND DISPOSAL OF WASTE PROCESS DRUMS**

Page 3, 1<sup>st</sup> Paragraph

The Contractor, as part of the work plan, shall identify the process and sequencing to accomplish the transport, handling, and disposal of the process waste drums and super sacks as Bevill-exempt waste to a lined **HDPE Geomembrane-lined RCRA Subtitle D Landfill**, at a minimum. The landfill must meet the requirements of its own permits and verification that it is in good standing (no violations or releases) will be required. The contractor will provide the name of the facility, facility address, a facility point-of-contact, phone number, permit number, and list of known violation and/or releases.

The Closing Date and Time remain unchanged as follows:

25 April 2003, 2:00 PM Local Time (PST)
